A FOOTBALL match, Strathcona vs. Edmonton, takes place to-morrow night at the south side at 7:30 o'clock.  
The next regular monthly meeting of the W. C. T. U. will be held on Wednesday 29th, at 4 p. m. at the residence of Mrs. G. H. BELL, late of the Queen's, returned from Winnipeg on Friday. Mr. Bell has rented the Clouthier restaurant in Winnipeg and returns there shortly.  
REV. SISTER DILLON of the St. Albert mission, left on Tuesday for Montreal, for a brief visit. This is the first time within sixteen years that sister Dillon has been east.  
G. W. BRIDGES, from Toronto, arrived on Wednesday to take a position in the Imperial bank. Mr. Bridges is a brother of C. S. W. Bridges, formerly on the staff of the Edmonton branch.  
The steamer "Minnow" of the Fort Saskatchewan Milling Co., came up the river Thursday night with 10 tons of flour for the market here. She returned Friday and brings up another ten tons to-day or to-morrow.  
J. WILSON came on on Friday's train. Mr. Wilson is an old country photographer and is employed by the Dominion government and the C. P. R. to collect photographs of Western Canada, which are distributed throughout England, to assist immigration. He returns south to-morrow.  
W. H. COOPER, secretary of the sports committee, is in receipt of the following letter from Robt. Kerr, traffic manager C. P. R.: "There will be reduced rates on the Calgary and Edmonton line for the 1st July holiday, and I hope that a large number of people will take advantage of same in order to attend your celebration."  
R. HARTLEY is in receipt of a letter from A. Johnson, formerly of Edmonton, who left here a year ago last spring for Klondike. Mr. Johnson is now in Vancouver, having travelled through the Dore for the country and come out by the coast. He states that he struck good prospects, but had to come out for lack of supplies.  
JOHN ELIN arrived from the Landing on the 21st inst., and wishes to put himself on record as saying that the road is in good condition since S. E. McCauley took the big steam launch over it, also that it is a pity there are not more big boats to take over, if there were the freighters would have splendid roads as Mr. McCauley seems to be more anxious to fix them than does the government.

## DOMINION DAY

THIS GRAND DAY which is so dear to the hearts of all Canadians, cannot be properly celebrated unless we are so clothed as to be able to enjoy ourselves during the oppressive heat which exists at that time of the year.

## PARLIAMENTARY.

Ottawa, June 19.—In the house of commons this afternoon N. F. Davin moved for a return for all orders-in-council respecting the letting of contracts without tender passed since the general election.

The minister of public works pointed out the facts in regard to the specific cases mentioned by Mr. Davin in connection with the department of public works. While speaking of the dredging contracts he said the work done by the government itself was better and cheaper than contract work. During an incidental reference to the difficulties and worries of the office, Mr. Tarte said he proposed discussing the question as a fair one for debate and one beyond party considerations, especially as the state of his health was such that if there was not an improvement, he might not be able to long remain in his present position. Having dealt with all the specific cases, Mr. Tarte spoke upon the general system of calling for tenders, and on the whole seemed to show a preference for day labor. He had come to the conclusion that in the matter of contracts by tender, ministers should be allowed more latitude than at present. He said that in England tenders were not asked for from the public, but from parties known to be competent and experienced. After a few speeches the debate was adjourned.

Mr. Flint asked the government to fix a date for the discussion of his proposed resolution authorizing the enforcement of legislation prohibiting the liquor traffic in a province voting therefor. The premier promised to fix the date as soon as the debate on the redistribution bill was concluded.

The question of the defeat of the Douglas bill respecting the grain trade came up in the house on the 21st on remarks made by Mr. Davin, West Assiniboia, respecting the newspaper attacks on the minister of the interior.

Mr. Sifton, in reply, made his position perfectly clear. He had supported the second reading of the bill for the purpose of getting it before a committee for proper consideration. He was strongly in favor of the provisions contained in the bill for the regulation and inspection of elevators. As to the provisions for encouraging the construction of flat warehouses as opposed to the standard elevators, he was not strongly in favor of it but was prepared to consider it if a case were made out before the committee. The facts brought before the committee did not, in his judgment, show that the encouragement of flat warehouses was desirable and he accordingly decided, as did his colleague, Mr. Fisher, to oppose that feature of the bill while supporting the main provisions of the bill which provided for a system of inspection and the regulation of elevators.

Mr. Sifton stated that his absence from the committee was purely accidental and not due in any way to a desire to avoid going on record upon the bill. Had he been present in the committee he would have voted with the majority.

Mr. Blair explained that the government was anxious to see a telegraph line to Dawson and when approached by the Northern company in October he did not hesitate to give them the countenance he did. However, he told them that the project must be taken up in a prompt business-like way. Nothing more was heard of the Northern company until after the government had decided in March to build a line to Dawson itself. From October to March neither the Northern company nor the Dawson and Victoria company had intimated they were ready to proceed with the work. Letters written by him to Mr. Roche were confidential and written at that gentleman's request. By publishing them in the London press to suit his own purposes, Mr. Roche proved he was no gentleman. Mr. Roche himself had since admitted that he should not have published a letter. The company had no reason to complain of their treatment.

The annual report of the minister of justice was presented to parliament to-day. The average daily prison population for the past year was 1,415, as against 1,353 for the previous year. There were 53 pardons as against 56 in 1897, and 8 deaths as against 16 in the previous year. Escaped prisoners were 2, compared with 7 in 1897.

Mr. Tarte left Ottawa on the 21st for England.

## NORTHERN RAILWAY.

Of Mackenzie & Mann's projected transcontinental railway the Toronto Globe says:

"From the Saskatchewan the line will be pushed westward through the fertile valley of the Saskatchewan river towards the mountains, touching at Edmonton and other important and growing towns en route. The Rockies will be crossed by way of the Yellowhead pass, and Fort Simpson will be the Pacific terminus of the railway. Nothing is said as to northern extensions of the line, but when the Canada Northern reaches Fort Simpson it will be but a step to the Yukon, while from Edmonton the Peace river valley, which according to explorers and surveyors who have penetrated that district, contains a large area suitable for wheat growing, can be reached without any serious engineering difficulty. From the foregoing statement it will be seen that the miscarriage of the arrangements with the Northern Pacific, which has induced Mr. Mann to intimate that it may be necessary to fight both the great railway systems of the northwest, marks the beginning of a conflict that will probably extend over a series of years and result in the duplication of existing railways, as well as the opening up of a vast territory far to the north of the main line of the C. P. R."

## ON TO EDMONTON.

Mr. Mann, of Messrs. Mackenzie, Mann & Co., has handed the following statement to the Montreal Herald. It contains all the information he will give regarding the firm's railway projects in Manitoba and the Northwest:

"Under our charter we have power to build from Port Arthur to Prince Albert via Winnipeg, and we are asking parliament for powers to extend our line to Edmonton, following the valley of the Saskatchewan river. We will have about 300 miles of this railway completed north of Winnipeg this season, and we intend to build this line on to Edmonton at the rate of about 100 miles a year, or as fast as the country settles up."

"We will build about 150 miles of the line between Winnipeg and Port Arthur this season."

"I do not think that we will be able to finish the line between Port Arthur and Winnipeg next year. We have no plans at present for a transcontinental line. Our railway programs for the present will be confined to the above lines namely, from Port Arthur to Edmonton, a distance of 1,300 or 1,400 miles."

"A thousand miles of this distance is a wheat growing country, as we do not run through the dry belt that the other transcontinental lines pass through, thus giving us a wheat growing country over the entire distance crossing the prairies."

## SENEGA ROOT.

This article is used in this country and Europe very extensively. There is but a small quantity of southern root produced. The large crop is in the Northwest. It is dug principally in Northern Minnesota and the northern part of North Dakota, also in Manitoba. In Manitoba the principal section is commencing, say, about at Emerson, and running in a north-westerly direction to Edmonton. The way to handle it after digging, is to wash it clean, remove the tops, and thoroughly dry it. The Indians and half-breeds dig a great deal as well as the white people. At the present time there are a few large lots of old root held by speculators at high prices, some of it two and three years old. These speculators do not want to sell except at high prices because including the interest, storage, and shrinkage, it costs them high. Other dealers have none with which to supply their trade, except the new root they are receiving. It is worth, laid down in Minneapolis, 21c for the poor root, up to 22c for the best root. This nets nearly 20c at the farthest points of digging, and more than this at the nearer points where the freight is less. If there should be any change in price either way, prices will go higher, because it rarely ever sells for any length of time at less than the present prices. As there is a cash market for this root at all times and an unlimited demand, whatever money it sells for brings that much more money into the country than otherwise would not be received. Dig all you can early in the season to help supply the demand. The principal markets for this root are Minneapolis, Minn., and Winnipeg, Manitoba, and from there it is distributed all over the world. The general storekeepers generally handle it in the interior places."

## PRIZE GRAIN EXHIBITS.

The department of agriculture of the Northwest government has been requested by the commissioners for the International exhibition at Paris in 1900, to procure samples of the various grains produced in the Northwest Territories in connection with the Canadian exhibit on that occasion, and it has, therefore, decided to adopt the following plan. Three prizes will be offered by the government at each of the forthcoming fall shows, \$3 for the best half bushel of wheat, \$2 for the best half bushel of oats, and \$2 for the best half bushel of barley open only to grain raised during the season

of 1899. The grain to be exhibited in a white, duck sack and the prize winning exhibits to become the property of the government. These samples will then be shipped to the department of agriculture at Regina, and any agricultural society which has not held a show during 1899 or held a summer show where grain of 1899 could not be exhibited, will then be invited to forward to the department an exhibit of each of wheat, oats and barley raised in the district represented by such society and after submitting the whole to competent judges, the following prizes will be awarded to the persons who raised the grain.

Best sample of wheat, gold medal and diploma.

Second best sample of wheat, silver medal and diploma.

Third best sample of wheat, bronze medal and diploma.

Best sample of oats, silver medal and diploma.

Second best sample of oats, bronze medal and diploma.

Third best sample of oats, diploma.

Best sample of barley, silver medal and diploma.

Second best sample of barley, bronze medal and diploma.

Third best sample of barley, diploma.

The prize winning samples will be sent to Paris as part of the national exhibit.

## SESSION NOTES.

OTTAWA, June 14, '99.

Supplementary estimates for the current year were brought down on Monday. They amount to \$2,647,628. Roughly speaking this is the amount by which the expenditures for the year have outrun the estimates. The Yukon figures largely:

Customs in the Yukon and British Columbia,	\$ 79,506
Pay of Yukon troops, transportation supplies and barracks,	250,000
Improving Lewis and Yukon rivers,	25,000
Department of interior,	150,000
Post office,	103,900
Miscellaneous,	200,403
Justice,	15,750
Police,	385,000

Indians get, \$1,209,507  
Mounted police, \$55,883  
Militia, 50,000  
Total for Yukon for current year, \$421,451  
The supplementary for the year ending June 30th, 1900, are not yet down.

It was expected that the redistribution bill would be brought down on Wednesday, but instead, owing to its being so near the end of the financial year for which the sums were required, the supplementary were taken up instead. The opposition did not offer any serious objection beyond ordinary criticism, and fair progress was made.

## FIRST OF JULY REPORTS.

## LESSER SLAVE LAKE.

(Special correspondence.)

This place is full of prominent personages, both white and red. Mr. James H. Ross looms up conspicuously in connection with the commission. The stand he took in working for the government road that he had the pleasure of coming over in six days in company with M. McCauley, M. L. A. of Edmonton, the numerous friends he has made among the different Indian and half-breed chiefs here, all help to make him our bright particular star guest. "Dick" Second, of fur fame, is a prominent figure at fur sales. Mr. Kirkpatrick, of the Imperial Bank, is rusticated here. He looks well and is tanned a healthy brown. Mr. McCauley is sizing the country up for future re-appearance no doubt. Mr. T. A. Brick, of Peace river, came in tonight with a contingent of natives; in fact every trader in this country is either here or on the way. The balance of the commissioners are away over due and the natives are very much disappointed in not finding them here on the date set. Mr. Ross is constantly on the go visiting each little band explaining away the delay of his fellow commissioners. Colin Johnson arrived in from the Landing tonight and bring the only news obtainable of the belated ones. He passed them away down the Athabasca loaded down and short of men, so he says, and making slow time. Mr. Dorbank, trader from St. John, came yesterday. He leaves in the morning with a load of "scurvyites" for the

Landing and Edmonton. Mr. Brick, McDermot, Desjarlais and Bredin will wait till after treaty.

Fur is lively here, some big bunches changed hands last week.

Reliable information is to hand of the burning of E. J. Lawrence's saw mill, grist mill, a quantity of flour, and 2,000 bushels of wheat at Vermilion some time ago. The fire is supposed to have originated in the boiler room.

A big tea dance was pulled off here this week and all the notables in town attended and enjoyed themselves immensely. From the standpoint of attendance and consumption of tea, bannock and bacon it was a huge success. The musical whang of the tom-tom could be heard at "sun up," and the recollection will be fresh in the minds of many of us for sometime to come. To sit cross-legged on the ground, sip tea and bask in the moonlight of a pair of dark eyes is an experience one forgets not easily, long live the tea dance.

June 14, '99.  
The Dominion government has appointed Lord Strathcona, Mr. J. I. Tarte, minister of public works, and Mr. Sandford Fleming the commissioners to represent Canada at the conference to be held in London, England, in connection with the Pacific cable. The conference was arranged for by Mr. Joe Chamberlain.

## DELIGHTED DELEGATES.

The Alexandria Citizen, of Alexandria, Minn., contains a long letter from J. A. McKay and Andrew Shields, being a report of their recent trip through the Edmonton district as immigration delegates. They say: We went 40 miles northwest of Edmonton, and we must say we travelled over more good farming land than we ever saw in one part of North America.

The soil, for grain raising and stock raising, is the best we ever saw, and no part of the American continent can compare with it for vegetables and root crops. We travelled 116 miles, and called upon the farmers, making inquiries of them, the amount of grain raised, the prices received for such, the prices paid for farm machinery, the cost of wood, coal, hay, horses, cattle, etc.

We found many who had been there from 2 to 8 years, and all were well satisfied, and contented with the change they had made. One farmer last season raised 21,000 bushels of wheat and oats, none less than several thousand. We have the addresses of over 50 farmers in Alberta, and any Doubting Thomases who wish can receive these addresses, and write them if they wish. During the year 1898, over 920 homestead entries were made at Edmonton and Red Deer points alone.

## SWIFT CURRENT PLACER GOLD.

L. P. Neal returned to Edmonton Friday from Swift Current creek, a tributary of the Fraser, having come by pack train to Donald, and thence by train. Mr. Neal was one of a party of three Edmonton men who left here last fall by pack train for the Jasper pass and beyond. His partners were Jackson and McLaughlin and the former it was who sent out the first word of the rich strike which he claimed they had made on Swift Current creek.

As to the actual value of the strike and the richness of the prospects, Mr. Neal confirms the later reports received. They party found good prospects at rim rock, but in sinking a shaft found no further colors. They were down 31 ft. without reaching bed rock when the high water of the spring drove them out and prevented further operations. The sinking of the shaft was very difficult on account of the ground containing boulders and other obstructions which had to be blasted out. Eight others besides the Neal party wintered on Swift Current. Their names are: C. P. Price, J. W. Evans, F. Halliday, A. Morin, J. Longtin, T. Plunkett, F. M. Owen, and Fulton. All of the parties assisted in sinking the shaft, having a common interest in finding out what was at bed rock. When driven out by the water Neal, Jackson and McLaughlin started for Donald for supplies. The last two remained at Golden. They were 12 days actually travelling. On the way they met four outfits going in, fourteen men in all. "The best time of the year, in fact the only time to prospect that country," Mr. Neal states, "is in September and October when the rivers are low and the snow has melted from the mountains as much as it ever melts and before the frost sets in. The mica, for instance, lies so high that it is almost in the belt of perpetual snow. It is from 2,000 to 3,000 feet above the valley of the river. The claims owned by John M. Smith, of Kamloops, the only ones on which any development work has been done, are from 2,000 to 2,500 feet above the valley of the McLeod and in order to get to their mica they had to shovel snow out of their cut on the 15th of August.

"Of quartz in place we saw none, the specimens we did see being merely floats."

"The prospects in that country are good. Having heard so much of it I thought it had been prospected years ago. Such does not appear to be the case, especially on the upper Fraser. There are no signs of the country having been prospected before."

"There are places on Swift Current where bed rock would be more easily reached than where we worked. A little below us is a falls and here the bed rock crops out. Just below there again Halliday, Morin and Longtin, of Golden, have their claims. They went out to Golden for supplies and we met them on the way in again. They will start work when the water lowers, about the 1st of September, and expect to reach bed rock at about 10 feet. Once that is reached the value of the creek will be proven."

## BIRTHS.

MOONEY—At Edmonton on Thursday, the 22nd, the wife of F. J. Mooney, of a daughter.

LAFORETTE—At Edmonton on Friday 23rd, the wife of F. Laforette, of a daughter.

## CLOVER BAR.

A picnic was held on Saturday, June 24th, in the beautiful poplar grove on the farm of Mr. Wakeford; many people were present from Edmonton, a number of the people of Strathcona, Agincourt and Fort Saskatchewan also being present. Dinner was served by the ladies aid at 12 o'clock, after which a lengthy programme of sports was dispensed with. One of the notable features was a race for a prize—a pen knife. Many not knowing that the prize was for the last in, broke holds and made records and so were declared winners in all succeeding events. Football succeeded the athletic exercises and there is promise of a very successful team here. A tug of war between married men and bachelors in which the married men were pre-eminent successful clearly goes to show that the former have much changed their tactics since last year, when they were easily defeated. Then followed a sumptuous supper, the last number on the programme.

Crops are still looking very strong and fresh. Mr. Ottewill filled the pulpit of the Methodist church on Sunday. It is announced that we shall have our new pastor with next Sabbath.

Clover Bar goes on increasing; the latest arrival being a young homesteader in the family of Mr. Hyslop.

## WETAKEWIK.

The foundations of Hamilton's hotel are about completed and a well is being dug.

Several farms in the vicinity have been sold to recent immigrants. The school will be under another principal next year, Mr. Chappell having retired. John West is about to erect a large machinery warehouse. Crops and gardens are looking splendid.

The roller mill is to begin very soon. It will be situated at the north of the village to the east of the railway.

Mr. Hamilton is recovering from his recent illness. Live hogs are being brought in very slowly.

Mr. Spencer is busily engaged painting carriages. The creamery keeps three men fully engaged handling the milk and cream.

Mr. Ford's young child died on Thursday; the funeral took place the following day. Mr. Normand has sold his town property.

Mr. Chappell and family returned from a visit to Red Deer. School closes next Friday.

## HUDSON'S BAY COMPANY.

Just received a big consignment of Ready to Wear Clothing from one of the leading makers and are in a position to show you a beautiful range of Suits and Odd Pieces at prices that are right.

Many not knowing that the prize was for the last in, broke holds and made records and so were declared winners in all succeeding events. Football succeeded the athletic exercises and there is promise of a very successful team here. A tug of war between married men and bachelors in which the married men were pre-eminent successful clearly goes to show that the former have much changed their tactics since last year, when they were easily defeated. Then followed a sumptuous supper, the last number on the programme.

Crops are still looking very strong and fresh. Mr. Ottewill filled the pulpit of the Methodist church on Sunday. It is announced that we shall have our new pastor with next Sabbath.

Clover Bar goes on increasing; the latest arrival being a young homesteader in the family of Mr. Hyslop.

The foundations of Hamilton's hotel are about completed and a well is being dug.

Several farms in the vicinity have been sold to recent immigrants. The school will be under another principal next year, Mr. Chappell having retired. John West is about to erect a large machinery warehouse. Crops and gardens are looking splendid.

The roller mill is to begin very soon. It will be situated at the north of the village to the east of the railway.

Mr. Hamilton is recovering from his recent illness. Live hogs are being brought in very slowly.

Mr. Spencer is busily engaged painting carriages. The creamery keeps three men fully engaged handling the milk and cream.

Mr. Ford's young child died on Thursday; the funeral took place the following day. Mr. Normand has sold his town property.

Mr. Chappell and family returned from a visit to Red Deer. School closes next Friday.

PAINT PROTECTION

You realize the necessity of protecting your house with good paint, but you do not realize the necessity of protecting yourself against poor paint. It all looks alike in the can, but one kind comes off, the other stays on; one kind soon looks shabby, the other keeps new. The kind that holds on strongest, looks new longest, is

THE SHERWIN-WILLIAMS PAINT

It is the result of a quarter of a century's paint-making experience; the product of the largest paint factory in the world. We sell it.

## SUPPLEMENT.

### Who Pays It?

When the eastern retail tailoring establishment sends a representative to Edmonton, who pays his salary, railway fare and hotel expenses? Do his employers lose it, or do his customers pay for it in addition to paying the proper value of the goods and the usual percentage of profit thereon? The question answers itself.

The man who would be well clothed can do so by dealing with

### RED DEER.

Mr. Perrit, inspector of public schools, gave professional visit to our schools on Monday. W. Postill has the foundation and excavations completed for his new house on Stewart street. This will be the finest dwelling between Calgary and Edmonton.

T. A. Cornet has completed the excavation for a large store to be erected by Stephen Wilson. This will be a large cut stone store having plate glass windows and complete up to date store. H. D. Johnson is the architect.

The stone quarry to the west of the town has been opened up and a new road built to the river level. This will enable stone to be delivered at any time of the year. This stone is said to be of a superior quality and is commanding good sales along the line and in a few days stone will be shipped to points along the railway. Work is to commence on the English church. This will be also a stone structure and will compare favorably with the best in the Territories when completed.

W. Piper has commenced work in his brick yard and will soon have brick ready for delivery.

Messrs. Love & Drake, lumber merchants, have dissolved partnership and hereafter Mr. Love will continue the business. Mr. Drake intends to go into British Columbia where he will engage in the same business. Mr. Love went south on Tuesday to Olds where he will go west to the foothills and inspect several new timber limits belonging to eastern parties. It is expected that he will work these limits in the interests of the owners in connection with his mill here.

Gaetz Bros., ranchers, have purchased the horses of Jasper Johnson and will carry on a horse ranch in addition to the cattle ranch which they have held for the past several years.

Last week Pine Lake cricket team played a match with the Red Deer team. The Red Deer team could not bowl against so fine a team as the Pine Lake team. We hope they will have as good success to-day at Innisfail where they play the crack team of Calgary.

The Orange lodge here on Monday night at its regular meeting decided to celebrate the 12th in Red Deer and invite the 12th lodge in the neighborhood to assist in the celebration. A good programme is being prepared and a grand time is expected.

Last week our local justices were very busy trying cases. The first to be tried was the case of Levi Atkins vs. J. Hart. An action to recover a balance of wages. Judgment for Atkins with costs.

This case will be appealed to the judge of the supreme court. Mr. Linham, of Dewdney was charged with having driven off several head of cattle belonging to Edgington & Reid. Before the case was called Mr. Linham settled with the complainant his charges for recovering the stock and so informed the court, but this would not satisfy the justices and they proceeded to try the case. After some evidence had been taken the case was adjourned for one week in order to consult with the department of justice at Regina.

The case comes up again on the 23rd inst. June 21st, '99.

### BASEBALL.

The third game between the baseball teams of Strathcona and Edmonton, which took place at the south side on Thursday night resulted in another defeat for Edmonton. The score was 15 to 5.

### ANGUS RIDGE.

Mr. and Mrs. Thirk were the guests of Mr. and Mrs. Ward on Saturday.

T. E. Perrett visited the Battle river school Tuesday p. m. Like his predecessor, Mr. Calder, he knows how to teach. Mr. Perrett visited the new Sweden school on forenoon of the same day.

Miss Carruthers, teacher at Red Deer lake, has been visiting her old friends at Battle lake.

Mr. Nelles is building an addition to his house.

Miss Baxter visited Wetaskiwin this week. D. McEachern is improving his farm by getting it fenced.

Miss Cummings, Wetaskiwin, was the guest of Miss Shantz last Sunday.

Crops never looked better than in this district this year. Robert Waterston, who is spending the summer in Lochaber, Que., reports spring as being late in Ottawa. There is no place like Alberta.
